## The Latest Foreign News.

Paraguay holds out no longer. Lopez has succumbed. The war is at an end, and great rejoicing is taking place in the cities of Brazil.

In France a quarrel is being gotten up between the partisans of the Emperor and those of Prince Napoleon. This indicates what would be likely to take place on a big scale in case his uncle's nephew should suddenly peg out.

A large Fenian demonstration has taken place in London, in favor of the prisoners belonging to that organization. Resolves urging an unconditional pardon were adopted. Everything went off quietly.

The celebration of the anniversary of the birth day of Humboldt at Berlin, is said by the Times to be the shabbiest affair of its kind which has taken place. The upper classes were absent.

Persia is again threatened with earthquakes. One M. Fall has prognosticated more of these startling affairs, and the people of Lima and Callao are in a terrible state of excitement. M. Fall says that Callao is to be destroyed by tidal wave as it was 120 years ago.

There is trouble brewing in Japan. Specie money is in circulation to a large amount, and paper money at a heavy discount, trade dull, and business jealous of each other. Japan is decidedly unsettled.

Prince Arthur is having a staid and quiet time in Canada. He was "doing" Quebec and Montreal last week; and made a speech.

## Au Eight Year Pestilence in India

Advice from Manila says: It is almost impossible to conceive anything more deplorable than the state of the fever-stricken villages of Houghly and Burdwan. The magnitude of the calamity and the utter helplessness of the people, while they excite our pity, almost lead us to despair. In the short space of eight years the fever has, it is calculated, swept away two-thirds of the inhabitants of the deserted villages. In some places the mortality has been for away greater.

The Madril press allude to the "working up of a hostility toward the United States," by the Spanish Government. Sickles is making no headway for the Cubans. On the contrary, he is reported to have made certain propositions to the Spanish Government relative to Cuba, which have excited great indignation in European circles, and it is now said that he will be recalled. His diplomatic career has been purely of his personal character. His foregoers are disgusted to witness the display he has been making at Madrid of his horrid ignorance and his astonishing impudence. The Madrid correspondent of the London Times has been moved to write home to that paper that the American Minister is unfit for his position, among other reasons, because he appears not to know the value of words."

## The Election of 1869.

California last fall gave its Presidential vote to Grant by a majority of 52,000. Now the Democratic majority on the State ticket is 12,000. This is equivalent to a change of 40,000 in Ohio, when the total relative votes of the two States are considered. In the Legislature, forty-eight Democrats and three Radicals go to the Senate.

In Maine Grant had a majority of all of 20,000. The Republican majority over all now is 8,000, without the twenty. This is equal to a change of 100,000 in Ohio.

In Connecticut, in April last, the Republicans had 500 majority. In November before Grant had 2,000 majority. Had it not been for Democratic local disaffection, the Democrats would have carried the State.

In Tennessee Grant had 30,000 majority in November. At the State election in August, a Legislature, composed almost entirely of Democrats and Conservatives, was chosen, and the extreme Radical candidate for Governor beaten by 70,000.

In Virginia, despite all the efforts of the Administration, the Democrats and Conservatives carried it by 20,000.

The results throw light upon coming events. The October elections are near at hand. They fully disclose their character. They indicate unmistakably the election of George H. Pendleton (Democrat) Governor of Ohio, and Packer (Democrat) Governor of Pennsylvania, from 10,000 to 20,000 each with Democratic Legislatures in both States.

On the recommendation of George B. Grant, father of the President, Mrs. Lucy Morehead Porter of Newport, has been made postmaster at Louisville, vice John J. Speed suspended. The Postmaster General nominated Krippenstaple, editor of the Volkswelt, but the President took his father's nomination.

The Queen of Russia has decided that all parents forcing their children to marry, or to enter monasteries or convents, shall be liable to one year's imprisonment that may be inflicted by the religious authorities.

## Krieg to be Hung.

The Courier Journal of Sunday says:

The motion for a rehearing in the case of William Krieg, convicted of the murder of his wife in this city in March 1868, was overruled by the Court of Appeals yesterday and the mandate quashed. Thus Krieg is left without hope, save in the intercession of the Saviour of mankind. As the law requires, Governor Stevenson will issue his order for the execution of the doomed man within thirty days. Ever since his perpetration of the awful tragedy, Krieg has maintained a stoic disregard for the solemnity of his case. With a persistence unparalleled even in life-and-death issues, he has defied against the most invulnerable legal barriers to ransom his body, not bestowing a serious thought, so far as outwardly indicated, upon his crimsoned soul. In this never-ceasing study of how to evade the gallows, Krieg exhausted every device that held out the faintest promise. Before he was first brought to trial, indeed very soon after he had wanly lulled his poor wife into a bloody grave, he suggested his own insanity and consequent irresponsibility at the time of the murder. Upon this plea he went to trial. A thorough, fair, and tedious hearing resulted in his conviction. The motion for a new trial, which quickly followed, was argued at great length and overruled by Judge Bruce after an ably digested review of the case in all its aspects. This denial of a rehearing was excepted to and thence the case went to the Court of Appeals on petition, with the result above stated.

The Friend of India says: It is almost impossible to conceive anything more deplorable than the state of the fever-stricken villages of Houghly and Burdwan. The magnitude of the calamity and the utter helplessness of the people, while they excite our pity, almost lead us to despair.

The war closed in 1865, more than four years ago. In that time the taxes collected from the people amount to nearly \$2,000,000, and have extinguished it, and yet, as it appears from the official reports, the debt was larger on September 1, 1865! What has the Republican party done with the \$2,000,000,000?

## The Louisville, Shelbyville, and Danville Railroad.

On yesterday, Mr. G. A. Armstrong, of Shelbyville, had a talk with the Board of Directors, had a talk with a number of our citizens in regard to this road. It was fully considered best to appoint a Committee to whom should be referred the proposition of substituting to the people of Boyle County the vote upon the subscription of stock in the Louisville, Shelbyville, and Railroad, submit the following proposition:

*Resolved*, That it is the sense of this meeting, that the amount authorized under the present charter will be insufficient to complete the road, and it is recommended that no vote be taken until the charter be so amended as to allow them to vote a larger subscription and guarantee the completion of the road to Danville.

*Resolved*, That we are heartily in favor of the construction of said road, and we do not hesitate to give as our opinion that the necessary subscription will be voted as soon as the proper enabling act can be obtained.

G. A. ARMSTRONG, Pres't.  
J. W. PROCTOR, Sec'y.

## The Post Office.

The appointment of Mrs. Porter of Covington, to be postmistress of Louisville, which has been whispered about in circles for six weeks or more, is at last confirmed by our Washington dispatches. She was commissioned yesterday. It is said that she owes her preference to General Grant's venerable father, who is a neighbor and friend of hers; but she is represented as having, in addition to this, the recommendation of excellent practical ability, unskilled private character and amiable manners.

Mrs. Porter is the widow of Judge Bruce Porter, and daughter of the Hon. James T. Morehead, who served Kentucky as a legislator, a Governor, and a Senator in the Congress of the United States.

The general opinion is to the appointment of Mrs. Porter is this, that while there is no doubt she is competent to fill the position, it is a matter of great regret that some citizen of Louisville was not selected for so important a charge. The gallantry of Gen. Grant's choice is pretty freely conceded, but is this a case for gallantry? If it is, were there no Louisville ad to be found among the list of Republican possibilities? The Republicans themselves seem to be most displeased. The appointment of Mr. Hayes of New Albany, was a bomb-shell, but Mrs. Porter of Covington, is thunderbolts. There is now no knowing whether the fact that a man is a native Kentuckian may not be an actual drawback in the estimation of the President. So the Republicans themselves seem to be most displeased.

An exchange says that there is no doubt that Secretary Rawlins, sinking under consumption, did derive the greatest benefit from the use of raw beef, and so improved under time, that he might even recover.

## Gold in New York.

It doesn't seem that Secretary Boutwell has been able to manage the gold and stock gamblers of new York. Somehow or other these sharpers manage to make the Secretary sell his gold and buy their bonds at their own figures. They handle him just as they want. When he deems himself sharpest, and getting the best bargain, he is really doing what the Shylocks and sharks of Wall street want him to do. He falls into their traps as easily as the timid hare is taken by the sportsman.

Gold has fluctuated terribly in the last few days. It went up yesterday to 144, and at that figure fortunes were made in a single day. There is no telling what it will go to-day—whether it will run up to 150, or go down again to what it was a few days ago. But no matter which way it goes, those who manipulate its rise and fall will make money thereby. The outsiders only will lose—and may be Secretary Boutwell will be, as he has been before, one of the outsiders, so far as the government gold is concerned.

These terrible fluctuations in gold are not the result of the legitimate handling of the precious metal itself. Millions upon millions are bought and sold each day without the handling of a dollar. And if the government would put a tax upon all sales of gold it might help in some way to avert the evils of such enormous fluctuations. The man, who with a small margin buys millions, might not be so anxious to do if he paid a tax sufficient to cover the small percentage of profit that he aims to make. Something ought to be done, and it is for the true and good to go to work and stop these wild fluctuations if it is possible.

Upon every article which comes in from abroad—tea, coffee, sugar, salt, clothing, of all sorts (for men and women's wear), lumber, spires, jewelry, articles of necessity and luxury—is now levied, on the average, the monstrous duty of forty-four per cent. in gold. Under an economical Democratic administration ten to fifteen per cent. would be more than sufficient to cover the cost of the previous condition.

The war closed in 1865, more than four years ago. In that time the taxes collected from the people amount to nearly \$2,000,000,000. During the last Democratic Administration the whole expenses of the Government were only \$70,000,000!

## The Political Situation.

At Exchange presents the following startling array of facts that cannot be disputed:

The Federal Government is paying \$30,000,000 per year for the National Bank currency, when it could issue greenbacks for nothing.

The Federal Government has power to tax the bonds the same as other property is taxed. This would yield a revenue of \$50,000,000 per year, and save the people the tax on coffee, sugar, tea and salt, but a Republican Congress has refused to do, and the

Government Reed is only a fair sample of the thousands of carpetbaggers who have descended upon the South, like a swarm of Egyptian locusts, to devour the substance of the land.

The people of the South have reasons to thank Heaven at length at the door approaches when many more of these fellows will be permitted to go "home" to Wisconsin and elsewhere.

The Richmond Dispatch, of Tuesday contains a poem, depreciating the accession of the South, sent to its editor by the late Mrs. Sigourney in February, 1861. The fate of the hour had been too well decided, at that time, the editor says, to render the publication of the poem advisable; and he adds:

"Had the ten Governors been hained in some dungeon for the detention of evil spirits, as they ought to have been, for the welfare of mankind, and had Virginia, Mr. Lincoln and Mr. Crittenden been intrusted with the settlement of the dispute, the Union would never have been disrupted, and the ardent hopes of the lamented pietists would have been realized."

The present high protective tariff is not upon their value, which is the only fair rule, but upon their measurement and weight. Thus the great burdens of Government are laid upon the poor, who consume the cheaper articles. The Democratic tariff is ad valorem, and not specific.

# The Shelby Sentinel.

Mr. James Baughman of Oldham recently sold 100 sheep at \$35 per head.

Messrs. W. Hall & Co. sold on Monday last to J. M. Calhoun 20 head of mules at \$100 per head.

S. S. & J. M. Williams sold to J. M. Calhoun 20 head of two year old Mules at \$102.50 per head.

We have never seen that buggy," was the exclamation of a rather care less driver who narrowly escaped running his wagon into a buggy on Main street a day or two ago.

We rather earnestly wrote and printed last week that Rev. T. F. Van Meen was appointed Presiding Elder of the Shelby Circuit. We intended to say Presiding Elder of the Shelbyville District. Persons acquainted with Methodist usages will see at once the difference.

Messrs. J. Taylor Amis and W. S. Caldwell recently made the trip from Shelbyville to New York in 42 hours. They were the first to avail themselves of the Cincinnati short-line route in visiting New York from this place.

The September term of the Shelby Circuit Court begins next Monday. There are docket 132 common law appearances, 42 equity appearances, 29 Commonwealth prosecutions, and 246 continuances.

CARPETS.—Call at the Carpet Rooms and examine the largest stock of carpets ever brought to Shelbyville. Hope & Amis have a complete stock and are selling at New York prices.

NEW GOODS.—Those in need of dry goods will do well to call and see the beautiful stock just received at Hope & Amis. Mr. J. T. Amis has been in New York several days and has selected with great care and taste, a full line of all kinds of goods. Call early and make your selections.

DRUGS! DRUGS! DRUGS!—Robb will keep constantly on hand a full stock of the finest drugs, patent medicines of all kinds. Prescriptions carefully compounded.

Barrett's " took the Silver Medal.

PEACEABLE.—All those indebted to F. Krueger will remember that their accounts were due July 1st, they therefore will come forward and settle either by cash or note. Eight per cent will be added to all accounts unpaid by July 23. This will positively be done as I need the money. Respectfully,

Mr. B. H. Crapster has gone East for the purpose of buying one of the largest stocks of Boots and Shoes ever opened in this market. Look out for bargains, as these goods will be sold at smallest possible profits. We examined the Boxed Boots and Shoes offered by Messrs. Crapster & Hanchett, and we must say they are fair in every respect. They can't be beat.

A call is hereby made on all the stockholders of the Ridge Road Teamster Company, for thirty three and one third per cent on their stock paid up to date, or before the 1st day of October 1859. Thirty three and one third per cent to the 1st day of December 1859 and the remaining thirty three and one third per cent to be paid on or before the 1st of March 1870.

Done by order of the board of Directors, S. D. WARE, Pres't.

CIDER MILLS.—We noticed a few days since at Bright & Bro's the Junior Buckeye Mill. It is just the mill for this market, being light, durable and highly practical. Farmers should examine it.

EVERYBODY takes it, Brady's Bitters.

ROBB & HOPE are receiving their fall stock of Boots and Shoes both ladies and mens wear which they are going to sell cheaper than the cheapest.

W. S. HELM NOTICE.—Ten shares of Shelbyville Bank Stock will be sold at the Court House door on Monday 27th day of Sept., 1859, in Shelbyville, between 10 and 3 o'clock.

SHOES.—Call at the Carpet Rooms and examine the largest stock of carpets ever brought to Shelbyville. Hope & Amis have a complete stock and are selling at New York prices.

DRUGS! DRUGS! DRUGS!—Robb will keep constantly on hand a full stock of the finest drugs, patent medicines of all kinds. Prescriptions carefully compounded.

Barrett's " took the Silver Medal.

PEACEABLE.—All those indebted to F. Krueger will remember that their accounts were due July 1st, they therefore will come forward and settle either by cash or note. Eight per cent will be added to all accounts unpaid by July 23. This will positively be done as I need the money. Respectfully,

F. KRUEGER.

Barrett's " most efficacious.

If you want to buy cheap Flannels, Cassimars, Shawls, Cloaks, or Furs, go to Hope & Amis.

MISS E. M. LYLE will resume her school for children on the 1st Monday in September.

SELLING OUT AT COST FOR CASH.—Great attractions at the Dr. Wm. G. Edwards' pants of Chicago pattern, whereas the Journal reports that the Constitutional is "everlast and safty, green as a gourd vine or other noxious vegetation." All of which is very silly. Children believe yourselves.

THROWING STONES.—Our neighbors, the *Spencer Journal* and *New Castle Constitutional* are quarreling over their ages. The former being 15 weeks old and the latter "a little over one year," there is certainly little room for dispute.

"Constitutionalist" accuses the "Journal" of wearing his "daddy's pants" of the Chicago pattern, whereas the Journal reports that the Constitutional is "everlast and safty, green as a gourd vine or other noxious vegetation." All of which is very silly. Children believe yourselves.

THE STOCKHOLDERS of the Mutual Club and Gymnasium met in the Court House last Friday evening to perfect their organization. It is gratifying to the friends of the enterprise to see our best and most energetic citizens are taking such a deep interest as to assure its success. We imagined after hearing Professors Dodd and Kinkel, Col. Taylor and Mr. Morris portray the advantages of its plans and interests that success was clearly in our grasp.

Various committees were appointed to solicit subscriptions, ascertain the probable cost of property and apparatus and to draft such regulations as were necessary for future operations. The meeting adjourned to meet again next Friday 24th inst to receive the report of Committees at which time it is desired that every citizen who wishes to further the object of the meeting will be present.

OLD SHELBY VICTORIOUS.—It does our soul good to record the success of the sons of Shelby in what ever honorable contest they engage. We recorded last week the brilliant success of Messrs. Harris & Offutt at the Kentucky Fair to which they had taken their stock. We have now to report a greater victory for these gentlemen. They went to the State Fair at Louisville last week, and there entered their Glenroe stallion in the model ring, with seven competitors, and took the blue ribbon. Their wives, Alice and Florence, were entered in the modeling ring for mares when Florence took the First and Alice the Second premium. From General Sweepstakes ring, where all the blue ribbon horses of the whole week were entered, Glenroe bore the premium colors, beating Tom Brock's Imported English horse, Miles "Refugee," "Edward Everett," and the noted horse of J. E. Redmon of Bourbon county. "Florence" took the premium in the sweepstakes ring, also.

The great success of Glenroe places him in an enviable position as his owners could desire. He can now retire upon his laurels, to pasture green, and with the best of content.
